

PANUTDA WONGSA

Frontend Developer (React / Vue.js)

CONTACT:

080-0691626

panutdawongsa@gmail.com

GitHub: panutda2001

LinkedIn: linkedin.com

SKILLS:

- **Frontend:** React, Vue.js, JavaScript (ES6+), HTML5, CSS3, Responsive Design, Vite, MQTT, Node-RED
- **Workflow:** Git, GitHub, Figma to code, reusable component design
- **Learning:** [TypeScript, Next.js, Tailwind CSS, REST APIs and UX/UI Design

EDUCATION:

B.SC. COMPUTER SCIENCE

Rajamangala University of Technology Krungthep (RMUTK) · Graduated 2024

CERTIFICATION:

UX/UI Specialization (Introduction, Empathize, Wireframes) — mydemy & NocNoc

LANGUAGE:

- Thai (native)
- English: Pre-Intermediate (A2)
- Chinese: Intermediate (HSK 3 Level)

PROFILE:

Frontend developer with 2+ years at Kitmeechai Electric (KMCE), building responsive React and Vue.js interfaces connected to real-time MQTT data. I turn Figma designs into reusable components and work in a Git-based workflow with engineers and designers.

EXPERIENCE:

TECHNOLOGY DEVELOPMENT ASSISTANT (UX/UI & FRONTEND)

Kitmeechai Electric Co., Ltd. (KMCE) · 2024 – Present

- Built the KIT-WISe company website in React: responsive, component-based, with a filterable project gallery and contact flow, deployed on Vercel.
- Built real-time Vue.js dashboards showing live device data (voltage, current, power, faults) over MQTT.
- Turned Figma designs into responsive, reusable UI components; also designed UX/UI for EV-charging web and mobile apps.
- Built Node-RED flows that send device fault and offline alerts to Discord and LINE; worked with engineers to clarify requirements and ship.

FRONTEND / UI INTERN — KMCE · 2023 – 2024

- Built UI components and supported frontend development and visual assets.

SELECTED PROJECTS

- **KIT-WISe Company Website** — React, Vercel · Live: kit-wi-se-energy.vercel.app · Code: GitHub link
- **Smart IoT Dashboard** — Vue.js, MQTT · Used by engineers and back-office admins to monitor 100+ devices across 10+ stations, so issues are seen directly instead of waiting for customer reports; praised by the team for making daily work easier.
- **Portfolio Website** — React, Vite · Reusable components, light/dark theme · Live: [link] · Code: [GitHub link]
